## Apply for Funding

See how much you qualify for in as little as 90 seconds. Get funded and working on projects within days—not weeks. Use the funds for staging, painting, major renovations, or moving costs. Whatever helps you sell!

The screenshot displays the HouseAmp user interface. On the left is a navigation sidebar with the following items: Project Management (My Property, My Projects, Pay Later Funding, Service Pros, Real Estate Pros), My Account (My Profile, Account Settings), Help Center, and Sign Out. The main content area features a modal window titled "You're All Set!" with a close button (X). Inside the modal, a message states "You successfully requested \$25,000". Below this, it says "Let's make it official. Sign your loan documents. (they will be emailed to you)" next to an illustration of people celebrating. A "Close" button is located at the bottom right of the modal.

For more information on the application process, see [Application Walk-Through](#).

## Invite Your Service Provider

Once your project is created, you can invite your service provider if they're not already on the platform. Or, if you're looking for a new service provider, search by name, zip code or service area for a provider already on the platform.

For more information about service pros, see [Assigning a Service Pro to Your Project](#).

## Approving Work and Paying Service Pros

Once your service provider has accepted the connection to your project, they can upload an estimate for you to approve, and then start work! To pay your service provider, they upload an invoice to the project, and you can review and approve it. Invoices approved by EOD Tuesday are paid out weekly on Friday.
